

What an amazing half term we have had, look at all our amazing learning!

We enjoyed recording our Christmas CD to raise money for the Ebola crisis.

We have been busy finding out about addition and subtraction. We are learning to record our number sentences.

We enjoyed learning about Space!

We loved learning about Space and aliens! We enjoyed our visit to the moon and we were really good at talking about what we would take with us!

We have enjoyed learning about Winter and cold places. We have been very creative and made snowy pictures and completed some snowy writing!

We enjoyed our ball session and loved the games Leslie taught us! We liked using the launchers to propel our balls in the air!

We are phonics experts now and we are getting really clever at breaking up our words and sounding them out!
