Western Primary School, in partnership with parents and carers, presents: 101 THINGS TO DO BEFORE YOU ARE 12!
Rationale

As adults, we all have memories from our childhoods. Some we may prefer to forget, but many are treasured memories of days or events which were special and which evoked powerful emotions such as joy, excitement, exhilaration and even fear. These events and associated memories go a long way towards shaping us as adults. In many cases they have played a part in the development of self esteem, the shaping of us as individuals and in providing motivation for literature, art, music, sport and other activities.

We believe that the experiences of childhood help to shape the person we become as an adult. With this in mind, it seemed to make sense to collate all the positive memories or experiences recalled by adults associated with Western School and incorporate them into our curriculum.

How it will work

The aim is that teachers and parents, working in partnership will try to ensure that all pupils passing through Western School will have had all these experiences before they are 12. Many will be incorporated into our curriculum; some will have to be done at home or during holidays.

The items in the list have been coded to indicate those which will be covered as a specific curriculum activity and those which will need covering at home.
