

PE and Sports - Children's Views Summer 2014

'We did some ball skills with a professional footballer. We had to dribble the ball backwards.'

Scarlet Kent Year 1

Before sports day, we did skipping to practice for races. The hurdles were lots of fun.'

William Straker Year 1

'PE is really fun at school. You learn lots of skills such as how to play games properly. I have enjoyed Total Sports being in school because the coaches help by answering all of your questions.'

Isla Marlow Year 2

Total Sports are excellent. They tell us good facts and show us how to improve our skills. I have enjoyed doing football and also my swimming coaches have been very helpful. If I could improve PE at Western, I would let the children chose some activities.'

Harry Barker Year 3

'Sports and PE at Western are really great because all children are made to get involved in lots of fun activities. Our teachers made learning skills fun and we get to use the skills in games. Overall, it is really fun!'

Poppy Mills Year 4

'Total Sports have helped us do lots of learning in PE and still made activities fun. My favourite was catch the flag because there was a lot of team building and trust. We could improve PE by getting a field and some more challenging equipment.'

Year 5 girl

I have enjoyed PE in year 6 because everybody gets involved and not only do you learn skills but the Total Sports coaches make sure you play some games to use your skills. We have had a wide variety of activities all year. It would be good if we got to use an astroturf field, maybe for when it was wet.

Jack Morley Year 6
