

Reception

What a busy term with a lot of learning...

This Term has been a testing one for us all, but we are glad to be back together. We have looked at superheroes for our return and how we have all had to be stay-at-home superheroes. We have reintroduced our class rules and linked this to how superheroes are, for example kind hands, helpful, lovely manners etc.

In maths we have been looking at the numbers 9 and 10 as well as number bonds to 10. We have been working on these numbers and the composition of these numbers, for example how we make 9, is it still 9 if we move counters across the tensframe etc.

We celebrated and learnt about St. Patrick's Day as we have a staff member and a child that are of Irish descent. We made four-leaf clovers, watched river dance and made split pin leprechauns.

We celebrated World Book Day this year by coming to school in our pyjamas and sharing our favourite bedtime stories.

We have also continued to practice our funky fingers and fine motor skills with Spring crafts such as paper daisies, pompom rainbows, cutting skills, mark making etc.
