

Turquoise Room Nursery

What a lot of learning this term...

We have practised our fine motor skills to help promote our funky fingers. We have been mark making, playing in sensory trays, manipulating and rolling playdough as well as practising snipping with scissors.

One of our topics this term has been All About Minibeasts. We have had lots of fun finding and naming different minibeasts.

We have enjoyed being outside practising our gross motor skills. We have used good teamwork to construct and create large scale models as well as practising our climbing, jumping, balancing and gross motor skills on the climbing frame.

Our role play has been very familiar this term to help us resettle back into Nursery. We have been playing supermarkets; we have used tills for money, bought packets of food and made lists for our shopping.

We celebrated World Book Day by dressing in our pyjamas and sharing our favourite bedtime stories.
