

# What a lot of learning!

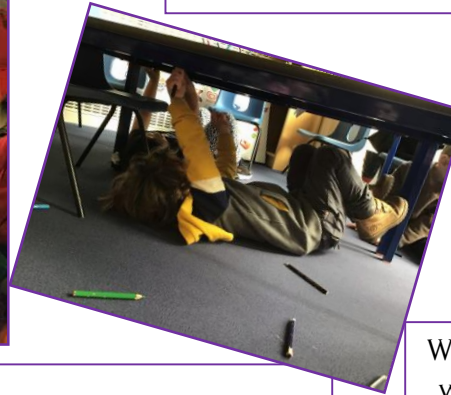

We have been practising our mark making using lots of different media.

We have been learning how to construct using our imaginations and loose parts.

We have enjoyed using our dancing scarves for 'squiggle whilst you wiggle' to prepare us for writing.

We have continued to practise our fine motor skills with our 'Funky Fingers' activities. We have been doing lots of things such as threading, picking up with tweezers, building, using pipettes and balancing too!

We have had lots of fun with our dough gym, using it to practise gross motor movements and phonics as we sing along to songs.

We have been developing our gross motor skills playing in the sandpit, building obstacle courses, running and jumping.
