

What a lot of learning!

We have been practising our mark making using lots of different media.

We have been enjoying developing our gross motor skills whilst digging at the sandpit.

We have enjoyed rekindling our friendships while we learn through our play both inside and outside.

We have continued to practise our fine motor skills with our 'Funky Fingers' activities. We have been doing lots of things such as threading, picking up with tweezers, building, using pipettes and balancing too!

We have set up obstacle courses, collected worms and kept them in a wormer and played outside in all weather.

We have been developing our number sense through subitising, making patterns and visiting 'Numberland'.
